

OVERHEAD CRANE Wheels Replacement

Wise Choice Crane & Controls - Port of Catoosa, OK

Taylor Crane & Rigging delivered comprehensive supervision, skilled manpower, and cutting-edge equipment for the seamless replacement of wheels on a 15-ton overhead crane. Our team expertly rotated and lowered the 93 foot span overhead crane, utilizing a robust 600-ton jacking system and turntable. With a strong commitment to punctuality and safety, the project was successfully completed on time, and to the customer satisfaction.
